FOR IMMEDIATE RELEASE

November 25th, 2019

Sorrento Therapeutics, Inc. Received and Rejected Unsolicited All Cash Acquisition Proposal

SAN DIEGO, November 25, 2019/GlobeNewswire/ -- Sorrento Therapeutics, Inc. (NASDAQ: SRNE, "Sorrento" or the "Company"), confirmed today that on November 23, 2019, it received an unsolicited, non-binding term sheet proposal submitted by two biopharmaceutical companies, to acquire all of the issued and outstanding shares of the Company for between \$3.00 and \$5.00 per share in cash.

After reviewing the proposal in consultation with its advisors, Sorrento's Board of Directors (the "Board") determined that the offer significantly undervalued Sorrento and was not in the best interest of the Company's stockholders. Accordingly, the Board unanimously rejected the proposal.

The Company is in active late-stage licensing and collaboration discussions with leading biopharmaceutical companies for the Company's immuno-oncology products, including multiple targets to be deployed within the KOKI DAR-T platform. The Company believes that these pending transactions alone represent potential short- and long-term value creation significantly exceeding the current all cash proposal.

Dr. Henry Ji, Chairman and Chief Executive Officer, said "the Sorrento Board of Directors and management team are committed to serving the best interests of the Company and Sorrento stockholders, and are confident in the Company's strategic direction and our ability to implement it".

There is no guarantee or certainty that the unsolicited proposal to acquire Sorrento will lead to a recommended firm offer to all stockholders of the Company, or that the Company will complete any pending licensing or collaboration transaction for Sorrento's immunotherapy platforms.

About Sorrento Therapeutics, Inc.

Sorrento is a clinical stage, antibody-centric, biopharmaceutical company developing new therapies to turn malignant cancers into manageable and possibly curable diseases. Sorrento's multimodal multipronged approach to fighting cancer is made possible by its' extensive immuno-oncology platforms, including key assets such as fully human antibodies ("G-MAB™ library"), antibody-drug conjugates ("ADC") as well CAR-T and oncolytic virus ("Seprehvir®").

Sorrento's commitment to life-enhancing therapies for cancer patients is also demonstrated by our effort to advance a first-in-class (TRPV1 agonist) RTX and ZTlido®. RTX is completing a phase IB trial in terminal cancer patients. ZTlido® was approved by US FDA on February 28, 2018.
